## **Reporting Student Data File Format**

# STAAR END-OF-COURSE REPORTING STUDENT DATA FILE FORMAT

## Overview

All STAAR, STAAR L, and STAAR A data for end-of-course (EOC) assessments will be reported on the same data file. There will be one record on the data file for each subject for which a student is assessed. Following is a list of the most significant changes being implemented in 2016.

1. **Student Performance Standards and Performance Level Results:** Fields have been added for Level II passing standards due to phase in approach being replaced with a standard progression approach (STAAR, STAAR L, and STAAR A test versions). See positions 392 – 399.
2. **New to Texas:** A new field have been added. See position 190.
3. **English III and Algebra II information:** English III and Algebra II will be offered as optional tests. See positions 201-202.
4. **ELL Progress Measure Qualification:** The STAAR ELL Progress Measure Qualification has been added. See position 429.

## Attention For Users of Tab-delimited Files

If you ordered a tab-delimited file, a delimiter has been placed after each data field in the file (Hex = 09). For example, the first data field, Administration Date, has a field length of 4 and is followed by a delimiter in position 5. Therefore, the data for Grade-Level-Code begins in position 6 rather than position 5 as shown in the data file format.

## **ITEM LEVEL INFORMATION**

431-498 68 **ITEM REPORTING CATEGORY NUMBERS**

The number in each field indicates the reporting category measured by the corresponding item. For example, the value in the first field, position 431, indicates the reporting category measured by item 1. The second field, position 432, indicates the reporting category measured by item 2, and so on.

Note: The reporting category numbers will be populated for all released test forms in Spring Primary Administration.

499-566 68 **ITEM STUDENT RESPONSES**

The character in each field indicates the student's response to the corresponding item. The student's response to item 1 is in the first field, the student's response to item 2 is in the second field, and so on. Correct responses are indicated by a plus sign (+); an alpha character (A–D or F–J) indicates an incorrect response; and an asterisk (\*) indicates that the response was left blank or multiple values were gridded. Note: for any open-ended griddable items, B = incorrect response.

Note: The student responses will be populated for all released test forms in Spring Primary Administration.

567-634 68 **ITEM CORRECT RESPONSES**

The character in each field indicates the correct response to the corresponding item (value = A–D or F–J). Note: “A” will be the correct response for any open-ended griddable items.

Note: The correct responses will be populated for all released test forms in Spring Primary Administration.

## **STAAR EOC CUMULATIVE HISTORY**

The cumulative history data provided is from the administration with the highest scale score (where the score code is an “S”) or, if the student has not passed, the result from the last time a document was submitted for the subject. Because students who previously took STAAR Modified are required to meet the requirements set by the Admissions, Review, and Dismissal (ARD) committee, those results are not included in the cumulative history section.

## English I

Prior to spring 2014 English I was composed of English I reading and English I writing and results were reported separately. For purposes of cumulative history reporting, student results prior to spring 2014 for English I have been reviewed to determine if a student met the graduation requirements under the rules in place prior to spring 2014.

For English I those requirements are: a scale score in reading of 1813 or higher, a scale score in writing of 1798 or higher, and a combined reading and writing scale score of 3750 or higher. If those requirements are met, a value of '1' will be present for Level II. If the student achieved Level III in both reading and writing then a value of '1' will be present for Level III. The scale score value will be the sum of the English I reading scale score and the English I writing scale score. If the student has not yet met the graduation requirement and has not tested after 2013, the scale score will be blank.
